"D/O Foxy Rose" is a fitting name for this beautiful, twisty horn dam who is now in the 80's ttt. Her Horns have perfect twist and simetry and she is a beauty to behold in the pasture. Great disposition and milker she has it all. She calves regularly but she has had the misfortune of losing (3) calves after birth to predators or environmental circumstances. Her recent 2018 winter calf by 20 Gauge was taken by Coyotes and Vultures shortly after birth.
