We absolutely love "Arista". Take Notice this Girl is and will be a great Texas Longhorn Dam. She has broke some horn on the right side but that ain't gonna stop her production ----- Please note that her current horn measurement is subjective - We have doubled her left horn measurement from center of skull to left horn tip and used that as a total "subjective" ttt measurement. As a 3 year old she experienced trauma to her right horn base

Total Horn: 90.5000 on 09/29/2022
TTT: 98.0000 on 01/24/2025
